

BookMyVenue

Find & Book the Perfect Space Near You

A WeCode Community Open-Source Project

May 2026

WHAT IS BOOKMYVENUE?

A location-based venue discovery and booking platform.

Easily find and book the perfect nearby spaces for birthdays, professional meetups, and local events across anywhere.

Birthday Halls

Cafes

Hotels

Resorts

Auditoriums

Meetup Spaces

Malls

Venue Halls

Kerala-First Venue Platform

Connecting Kerala's Finest Venues

Instant Booking

THE PROBLEM WE'RE SOLVING

No Central Platform

Venue discovery is scattered across WhatsApp or Insta pages and Google searches.

No Easy Booking

No standardized way to check availability for local event spaces.

Community Needs Unmet

Birthday halls and meetup spaces have no digital presence.

Venue Owners Struggle

Small owners lack tools to manage inquiries and bookings online.

OUR SOLUTION

BookMyVenue bridges the gap between people seeking local venues and the venues themselves — simply, smartly, and openly.

Location-Based Discovery

Users share their location to find nearby venues instantly across anywhere.

Simple Booking Flow

Browse, view details, check real-time availability, and confirm your booking in seconds.

Smart Filtering

Find exactly what you need by filtering by venue type, capacity, price range, and date.

Venue Listings

Venue owners get a dedicated profile page to showcase photos, amenities, and pricing.

VISION & MISSION

VISION

To become Kerala's most trusted and accessible venue booking platform — empowering communities to gather, celebrate, and connect without friction.

MISSION

Building an open, community-driven platform that simplifies space discovery for everyone, starting from the smallest neighborhood birthday hall to major city venues.

WHO IS THIS FOR?

"BookMyVenue is for anyone who needs a space to gather."

Families

Birthday parties and anniversaries

Community Groups

Local associations and hobby clubs

Professionals

Small teams needing meeting or workshop spaces

Event Organizers

Freelance planners managing multiple bookings

Venue Owners

Small owners who want to go digital

OUR ROADMAP

PHASE 1 Build Your MVP

- Build an MVP in any stack
- Solo or group participation
- Core feature: nearby listings
- End-of-phase MVP review
- Best ideas move forward

PHASE 2 Refine & Collaborate

- Shortlist top Phase 1 MVPs
- Merge best ideas into one
- Contributors team up
- Real venue data added
- Community feedback loop
- Stack Planning

PHASE 3 Integrate & Stabilize

- Google Maps integration
- Working booking flows
- Onboard real Kerala venues
- Community testing & bugs
- Performance & UX polish
- Payment Integration

PHASE 4 Scale With the Best

- Top contributors as core
- Build for scale & reliability
- Advanced features & pay
- Long-term ownership
- Full production launch
- Project Equity Distribution

HOW WE COMMUNICATE

All coordination happens across three simple channels — pick what works for you.

WeCode Premium Discord

Our primary home for all BookMyVenue discussions. Join the WeCode Premium Discord server and look for the thread named #book-my-venue. Day-to-day conversations, design decisions, and team coordination all happen here.

PRIMARY CHANNEL

WhatsApp Community Group

Major updates, announcements, and milestone releases are shared through our WhatsApp Community Group. Designed for easy access so no important news gets missed — even if you're away from Discord.

MAJOR UPDATES

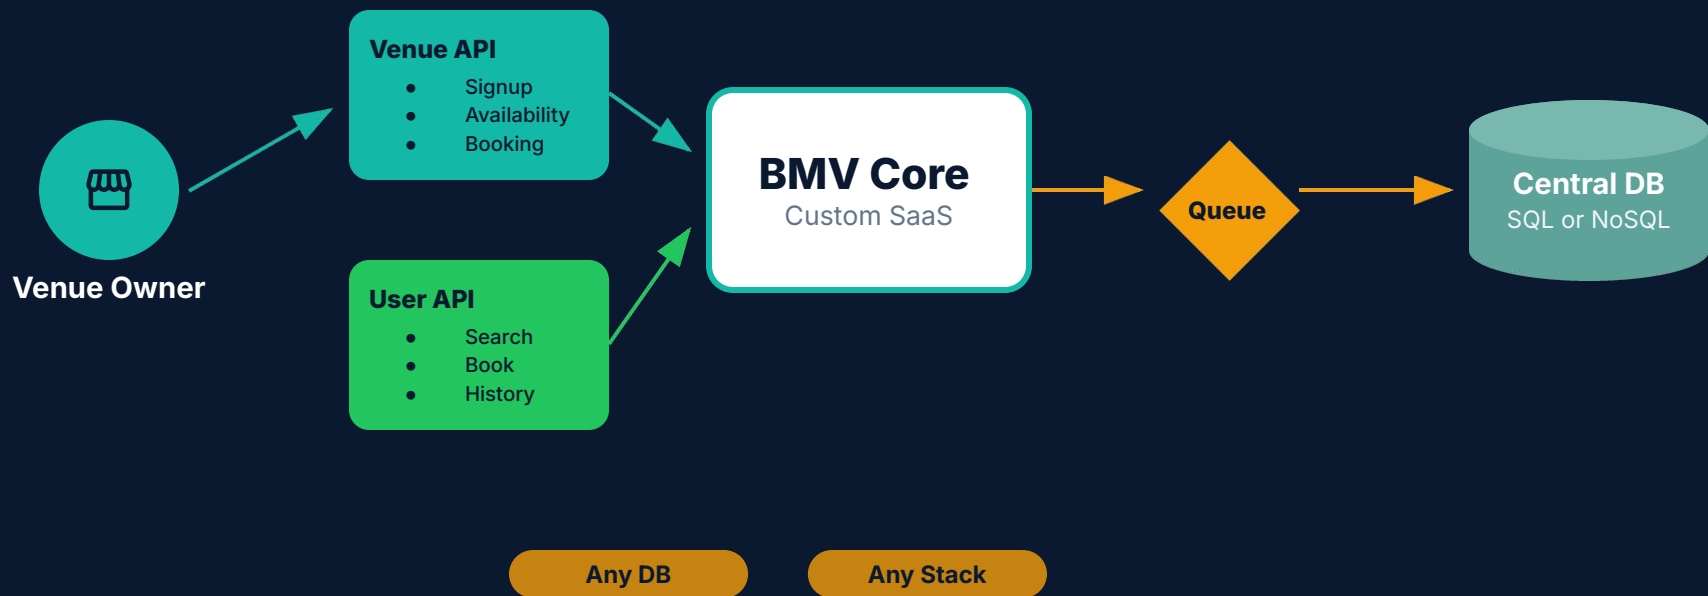

GitHub Issues

Have a doubt? Want to propose a feature? Raise a GitHub Issue. This is the most structured way to communicate — everything is tracked, documented, and visible to all contributors.

DOUBTS & PROPOSALS

HOW IT WORKS

Venue owners onboard → Users discover & book → BMV handles everything in between.

WHO USES IT & WHAT THEY CAN DO

USER

Auth

Signup and login with email or Google

Search & Discover

Find nearby venues based on location

View upcoming and past bookings

Cancel & Refund

Cancel booking and receive refund via BMV

VENUE OWNER

Auth

Signup, login and create owner profile

Submit Venue

List space with photos, price, capacity

Await Approval

Listing verification by admin

Manage Listings

Edit details, update availability and pricing

Manage Bookings

Accept or decline incoming requests

Booking Analytics

View occupancy and booking stats

Receive Payments

Get paid through BMV after confirmation

ADMIN

Auth

Secure admin login with role-based access

Venue Approval

Review and approve/reject venue listings

User Management

View, suspend or remove user accounts

Venue Management

Monitor all active listings on platform

Booking Overview

See all bookings across the platform

Payment Oversight

Monitor transactions and flag disputes

Analytics Dashboard

Platform-wide stats - users, revenue

PROJECT REPOSITORY

Everything you need to get started is already there.

github.com/WeCode-Community-Dev/BookMyVenue

Guidelines

How to contribute, branch naming, PR rules

Disclosures

Project policies and community standards

Issues

Where ideas and feature requests live

Read the guidelines before starting. Everything is documented.
